What is a hate crime?

Hate incidents involve hostility or violence towards someone because of who they are.

A hate crime is when a criminal offence takes place which is perceived by the victim, or any other person, to be motivated by hostility or prejudice based on a person's:

- Race or perceived race, skin colour, nationality, ethnicity or heritage.
- Religion or perceived religion, including people without a religious belief.
- Sexual orientation or perceived sexual orientation.
- Disability or perceived disability, including physical impairments, mental health problems, learning disabilities, hearing, and visual impairments.
- Gender Identity including people who are transgender or transsexual.

Hate crime can fall into one of three main categories: physical assault, verbal abuse, and incitement to hatred.

It can include:

- name calling or verbal abuse
- graffiti or abusive writing
- damage to property
- threats or intimidation
- bullying or harassment
- physical attacks or violence, including sexual violence, arson, and murder.
